

### Assessment rubrics

	4	3	2	1
Inquiry	I always have questions and make observations that relate to the career.	I commonly ask questions and makes observations independently and they relate to the career.	I sometimes ask questions and make observations but other times I need to be reminded.	My teachers are always begging me to ask questions. My work lacks relevant observation.
Knowing and Skills	I always show what I know about the work. I demonstrate good observation skills and am confident in the accuracy my conclusion.	I often show what I know and I usually make pretty good observations about the career	I only show what I know when I am reminded to. I am not usually sure about whether or not my conclusion is accurate.	Teachers have no idea what I know because I never show them, I just around.
Enhancing and supporting community	I always make sure everyone gets a turn and is included. I compromise, talk respectfully and support other people ideas	I have a “you first”, “me last” mentally. My body language communicates positively.	I sometimes have a “me first” mentally and forget to listen to, or cooperate with others	I don’t help or communicate with my group members and I act like I don’t want to be there.
Communication	I am direct expressive and scientific. I communicate my ideas simply but in details	I communicate my satiric ideas clearly.	I sometimes communicate my ideas but my group members need to prompt me.	(1) I don’t really ever communicate , I sometimes just sit or I talk about other things.
Work habits	I use	I usually use	I sometimes	I basically don’t

	strategies that help me complete my tasks in the required time.	strategies that help me complete my tasks in the required time	fool around, and I lack focus. My work inconsistent	do anything. I just sit in the desk and relax, not paying attention to talk my work.
